

CONTRIVED (BY MEANS OF PNEUMATICS, RASPBERRY PI, \$20 AQUARIUM PUMP, COPPER WIRE, BATTERY, SOLAR CELLS, ETC.)

A DEVICE THAT WILL LIGHT A CIGARETTE AND IMMEDIATELY PUT IT OUT ON THE ARM OF A RECLINED, WOOD CHAIR.

THE PROBLEM IS, HOWEVER, ONLY CREATURES WITH ARMS WILL UNDERSTAND—SYMPATHIZE—WITH THE ARM OF THE CHAIR, ONLY THEY WILL IMAGINE THE BURN.

THREW THE DEVICE AND CHAIR AWAY AND WROTE IT DOWN. CREATURES WITHOUT ARMS WILL NOT UNDERSTAND THE ARM OF A CHAIR, BUT EVERY CREATURE CAN READ, EVEN ANIMALS.

BEEN TEACHING ANIMALS LETTERS SINCE 1983, AND THAT'S WHAT'S KILLING THEM, SO THEY UNDERSTAND.
